Hi Tammy,

No, I don't believe they asked me that specific question when they were here. I am attaching the Policy I used for Rx Questionable orders if that will help you.

Subject VAWD Question

Hello there,

Did VAWD ever say anything to you about needing to monitor suspicious ordering for High Val items and Lifestyle Drugs? If so, what did you do? Do you have an in-house procedure for this or did you contact corporate?

We are in the very final stages of our approval and they are stating that our procedure doesn't mention the above.

Thank You,
Tammy Trumbull
